

Conflict Materials Statement  
13 JUNE 2013

This statement is in regards to the purchasing and use of raw materials and the Dodd-Frank Act, specifically section XV.

Wright Capacitors, Inc. (WCI) is fully aware of the concerns of some of the mining activities in the Democratic Republic of the Congo (DRC) and neighboring countries and, that these activities are resourced to fund violent conflicts and human rights violations by armed groups in the region. These mining activities for Conflict Materials such as gold, tin, tungsten and cobalt is a major concern to WCI as well as the entire electronics industry.

WCI is committed not to purchase any materials which we know to be sourced from these conflict regions. We expect that all of our current and future suppliers adhere to this same principle and to exercise their due diligence to ensure that all materials in their supply chain do not contain any of these conflict materials. WCI is committed to ensure the health, safety and well-being of people and the environment worldwide and will continue to practice these principles in our global business. We also expect our suppliers to share this same commitment.

John H. Crandall  
President/CEO
